OUR SISTER CONCERN

STERILE EXTRUSIONS PRIVATE LIMITED

Office Address:

THE LORDS,
2C, 2D, 2ND FLOOR,
8, Strand Road,
KOLKATA - 700001

Email : sterile@alsmith.org

Factory Address:

Plot no. 2909, 2910
NH2 Bypass, Near Chowringhee,
Lachmanpur, Post - Salanpur,
West Bengal - 713357

Email - sterile.extrusions@gmail.com

Product:

Aluminium extrusions of all varieties of the architectural, commercial and industrial needs and also Aluminium Ladders.

Capacity:

Manufacturing capacity 4200 MT.

Anodizing capacity 1800MT.

Licenses / Certification:

MSME certified & Import & Export certified.

ISO Certification.

OUR TEAM

ABHISHEK SHARAD

Mr. Abhishek Sharad aged about 43 years has passed his LLB and LLM. Having keen knowledge in legal front he adds great value to which ever organisation he associates himself with. Moreover, he has been working in real estate sector for the past ten years which makes him a perfect candidate to build a business from ground up.

MAHESH KUMAR SARAF

Mr. Mahesh Kumar Saraf, a commerce graduate is having experience of 35 years of business. M/s Saraf Silicates, Aditi R&D Services, Vaishnavi Polycoates are the business Firms which tells the story of his dynamic managing & leadership capabilities. He started his Aluminium journey back in 2012 with the formation of Sterile Extrusions Pvt Ltd. Under his leadership Sterile Extrusions has grown to be a recognized name in the field of Aluminium extrusions products in Eastern India.

SURESH BARALIA

Mr. Suresh Baralia aged about 56 years, a commerce graduate, having a work experience of more than 36 years. He stated his carrier way back in 1984 with FMCG products and worked his way through different sectors ranging from Civil construction, to home appliances to LIC financial advisor. He jumped ship to manufacturing sector in 2010 with iron slag crusher units in Hyderabad, Goa and Chennai and has been working in manufacturing sector since. Having immense knowledge of finance and accounts, he brings with himself such unmatched expertise which can help any organization to sore great heights.

PRAVIN KUMAR CHAND

Mr. Pravin Kumar Chand aged about 52 years is a graduate from Kolkata university. His professional career expands for more than 3 decades and has expertise in many different fields. He has been working in aluminium related industry for the past 5 years.

VIKASH AGARWAL

Mr. Vikash Agarwal aged about 37 years is a graduate (Bachelor of Business Management) from Alliance Business Academy, Bangalore. He has experience working with multinational company Xchanging Solutions Limited (Formerly Cambridge Solutions Limited) of about 4.6 years as Team Lead Sales and Business Development. He has carried out wholesale and retail sale of Aluminium Extrusion for 4 years catering to North Bengal, Sikkim and Bhutan.

AMIT KANDHARI

Mr. Amit Kandhari aged about 42 years is a graduate in accounts honors from Calcutta university, started his professional career in the year 1998, when the Ferrous industry was booming. He started with refractory manufacturing and upgraded himself very shortly to iron and steel manufacturing. Having worked in the iron industry for nearly 2 decades he shifted to Aluminium sector under the name of Sterile Extrusions Pvt Ltd in the year 2018 and has never looked back since.

PIYUSH GHOSH

Mr. Piyush Ghosh aged about 28 years has passed his Higher Secondary form Kolkata university. He has experience working in aluminium industry for the past 10 years both in smelting and Trading front.

SPECIAL FEATURES OF ALUMINIUM DOORS, WINDOWS, PARTITIONS AND GAZING PROFILES

- AFFORDABILITY**

One benefit of aluminium windows is that they can be significantly cheaper than other window frames. For example, wooden frames such as timber can cost a lot more than aluminium windows and require attentive maintenance.

- DURABILITY**

Aluminium windows have can last up to 30 years. This is because, aluminium is considerably more resistant to the outside elements compared to other frames, making them less likely to warp or rot as a result. Aluminium also has a high strength-to-weight ratio, making them harder to dent.

- EASY TO MAINTAIN**

While also being durable, aluminium windows have the added advantage of being easy to maintain. Different finishes may require more care than other, but overall a quick clean of the glass and frame every 2-4 months will help remove dirt and keep the windows looking shiny.

- SUITABILITY FOR MANY DESIGNS**

Due to how aluminium is manufactured, these windows can easily meet your exact design specifications while maintaining the inherent strength of the material. Furthermore, there is a large variety of customisations from glassing options to finishes in a wide range of colours.

- ECO FRIENDLY**

Aluminium is also a fully sustainable product. It's 100% recyclable and non-toxic, leaving a minimal ecological footprint. Recycling aluminium itself requires just five per cent of the initial energy consumed to create it

- » Light in weight.
- » No risk of adhesion failure.
- » No possibility of fading.
- » Uniform surface finish.
- » Highly impermeable anodic coating layer.
- » Abrasion resistance.

- MINIMUM ORDER:**

Our minimum accepted order quantity is 300 Kg against each section / profile.

- STANDARD LENGTH:**

Material is supplied in standard length of 3.660 meter (12 Ft.). On customer's request, specific custom lengths i.e. 1.00 meter to 6.00 meter (Max.) can also be supplied. It would be finalised prior to order booking.
